Asia Steel Forum 2023 is an event that aims to promote exchanges within the industry and enhance mutual understanding between stakeholders in the areas of capacity ramp-ups, market potential, and technological advancements for boosting sustainable methods of steel-making.

The conference will bring together, under one roof, stalwarts from the Chinese, Indian, Japanese, Korean and Vietnamese iron and steel industry to engage in and discuss the major issues, with key solutions for fostering a win-win collaboration.

Why Vietnam?

- ❑ GDP growth rate in 2022 was **8%**
- ❑ Per capita steel consumption was at **240kg/person**
- ❑ Crude steel production in 2022 touched ~ **20 mnt**
- ❑ Total steel demand forecast by 2030 will be **30-32 mnt**

Key Focused Areas

1. Decarbonization: How are steel mills combating to reduce carbon emissions globally?
2. Global steel and raw materials supply/demand outlook
3. Emerging Vietnam: Opportunities and challenges
